## Ilmi Ta'leem for Mumineen

Mumineen in Hong Kong are benefitting from regular weekly sabaq of haqiqat kitaab. Currently mumineen in Hong Kong participate in two different sabaq halqas, one led by Shz Dr Husain bhaisaheb bin Syedna Qutbuddin, and another led by Shzd Dr Bazat Saifiyah baysaheba binte Syedna Qutbuddin. These sabaq are conducted with participants from all over the world via video link and are interactive. All participants can ask questions (pertaining to the kitaab, or on any other topic) during and after sabaq.

Arabic language classes are also provided for those who wish to gain a closer understanding of the Qur'an, doas that we pray daily in namaaz, and other qasidas, munajaats, and Arabic language marsiyas that are frequently recited.

## Ilmi Ta'leem for Farzando

Regular madrasah classes are held for children once a week, and classes are led by Shzd Dr Bazat Tayyebah baysaheba binte Syedna Qutbuddin. Classes are held via video link, and farzando in Hong Kong participate with farzando from other cities in the region, and all the children can see and hear Shzd Dr Bazat Tayyebah baysaheba, as well as each other, for a fully interactive classroom environment. Classes last approximately 2-3 hours each week and cover a variety of subjects.

Farzando are encouraged to pray Quran and namaaz daily, and are encouraged to attain the best secular education possible and interact freely and openly with other communities. Our mawali kiraam have led by example to show that there need not be any compromise between religious values and secular learning – both can and should be attained and are complementary, not at odds with one another.
